

# PEMBINA RIVER INTEGRATED WATERSHED MANAGEMENT PLAN

## Think this plan will “sit on a shelf”?

Well, blow the dust off your reading glasses. Over \$5 million will be spent on environmental action directed by this plan over the next 10 years.

### Dear Watershed Resident:

In the autumn of 2008, you told us what needed to be done to improve the Pembina River Watershed.

Since then, a lot of hard work has gone into developing an integrated watershed management plan that will meet the needs our watershed.

Come out to one of our public meetings and let us know what you think of the plan you helped write. Over \$5 million dollars is on the line.

The draft plan will be unveiled, including a short presentation. Coffee and donuts will be served.

Sincerely,  
Murray Seymour  
Chairperson, Pembina Valley Conservation District

### Partnering RMs:

- Argyle
- Killarney-Turtle Mountain
- Lorne
- Louise
- Morton
- Pembina
- Riverside
- Roblin
- Stanley
- Strathcona
